

EyeKo.Drw(Net certified version)  
About Web installation procedure

FISCO Co., Ltd.

- 1) First, check the license number sent by FISCO.

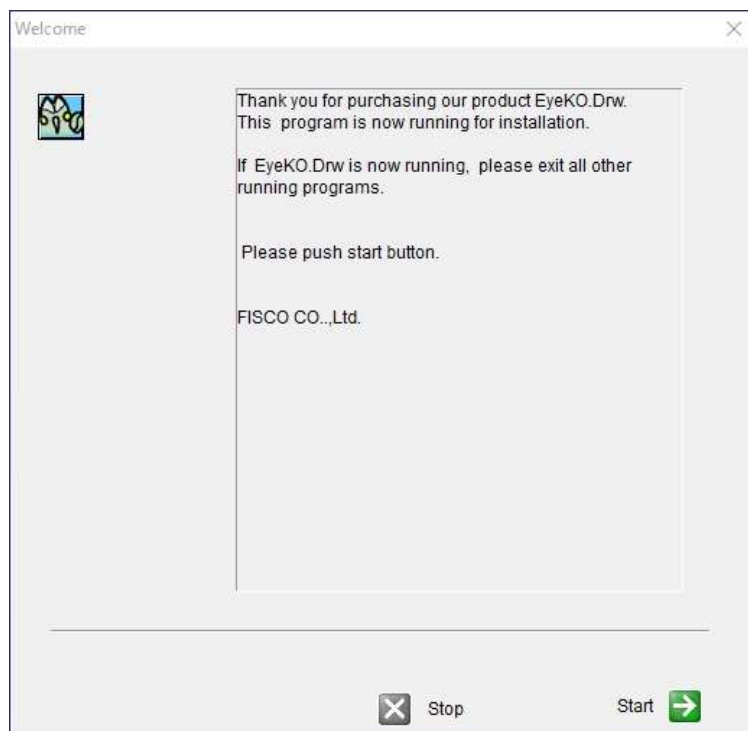

Example: ad725cda-7d913ea6

It is in a format in which 8-digit alphanumeric characters are connected by a hyphen.  
The left side shows the company ID and the right side shows the product ID.

- 2) Download the program from the following URL from your browser.

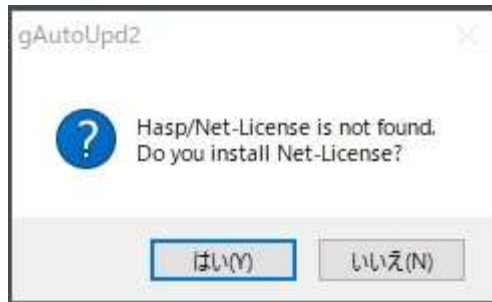

[https://www.fisco21.net/eyeKO/download/EYEKO\\_CD\\_ENG.EXE](https://www.fisco21.net/eyeKO/download/EYEKO_CD_ENG.EXE)

- 3) When executed, the program will be automatically decompressed and the installer (Setup32.exe) will start. In rare cases, it may be hidden in another window and started, so if the start screen is not displayed, check if there is a blinking program on the taskbar.

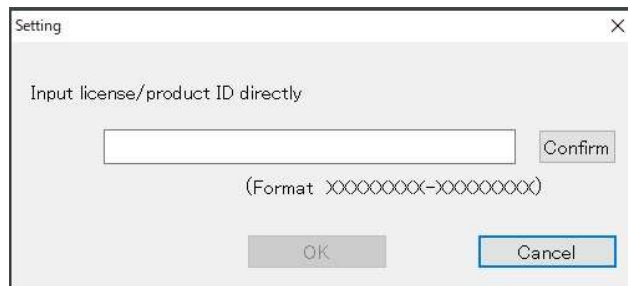

- 4) When the installation is complete, the "Net License" program will start automatically (gAutoUpd2.exe). After all, it may be hidden in other windows, so if the startup screen is not displayed, please check the taskbar.

5) Confirmation screen for installation → Select "Yes"

6) The screen for entering the license number will be displayed. After entering it correctly, click the "Confirm" button. If the number is correct, you will be able to press the "OK" button.

7) If the following screen is displayed, the installation is successful. Please exit program.
